OFFICE OF
THE COUNTY ATTORNEY
COUNTY OF ULSTER

June 25, 1945

To the Board of Supervisors of the County of Ulster:

Gentlemen:

On January 20th, 1944, two claims were filed against the County of Ulster by Elizabeth Murphy, the mother of F. Madeline Murphy, both residing at Saugerties, New York, for alleged damages sustained by her and her daughter F. Madeline Murphy on or about October 25th, 1943 at or near the premises owned by one Gippert on County Road 33 running from Mt. Marion to the state highway known as Saugerties-Woodstock State Road. The said damages were alleged to have been sustained by F. Madeline Murphy as the result of a fall into an opening located on an abandoned piece of highway.

F. Madeline Murphy sustained considerable injuries to her head, face, eyes, mouth, teeth and other portions of her body which necessitated her

hospitalization for some period of time and involved considerable expense for medical and dental treatment.

Elizabeth Murphy the mother of F. Madeline Murphy, an infant, was obliged to pay these expenses and her claim represents those expenses and disbursements which she incurred, while the claim of F. Medeline Murphy is for the injuries alleged to have been sustained by her which is alleged are permanent in character.

On October 2nd, 1944, two actions were instituted in the Supreme Court by Elizabeth Murphy individually and as Guardian Ad Litem of F. Madeline Murphy, her daughter, demanding damages in both actions in the sum of $27,500.00 together with interest.

An important question in this case is a determination of the title to the portion of the abandoned section of the King's Highway on which the accident occurred. If there had been an original grant of the highway to the state or highway with a reverter clause so that the title went back to the heirs of the former owners of the surrounding properties upon the cessation of use of the highway, the responsibility of the County would have ceased. A search was made of the title of the Hauck Freese and Gippert properties, which surround the old road at this place. Deeds were traced back to approximately 1800, but earlies deeds seem to have been unrecorded. Your attorney could not establish the early title to this road from the records of deed on file and was therefore unable to sustain the proposition that there might have been a reverter upon cessation of the use of this road.

A search was also made of the statutes applicable to laying out the King's Highway, of which the abandoned road was a part. The earliest statute is an Act of the Colonial Assembly of June 19, 1703 for the laying out of what came to be known as the King's Highway. Subsequent colonial statutes expanded and clarified the rights and duties imposed under this statute. The lands for the King's Highway were not taken under condemnation as we know it, but were appropriated by the state. It is a question open to litigation as to whether title stayed in neighboring owners or whether it was divested.

After considerable negotiations between the attorney for the plaintiffs and myself, an adjustment of the matter was arrived at whereby Elizabeth Murphy as Guardian Ad Litem for F. Madeline Murphy is willing to accept the sum of six thousand dollars in full settlement of her claim for damages as a result of the injuries sustained by her, and Elizabeth Murphy

is willing to accept the sum of two thousand dollars in full settlement for her claim for hospital, medical, dental and other expenses incurred by her on behalf of her daughter, F. Madeline Murphy.

It is my recommendation after a full examination of the facts surrounding these claims that a resolution be adopted by this Board approving the aforesaid settlement, namely, that the County of Ulster pay to the plaintiff Elizabeth Murphy, as Guardian Ad Litem, for F. Madeline Murphy, an infant, the sum of six thousand dollars in full settlement to her claim against the County of Ulster, and the sum of two thousand dollars to the plaintiff Elizabeth Murphy in full settlement of her claim against the County of Ulster.

Very truly yours,

FREDERICK H. STANG.

STATE OF NEW YORK
DEPARTMENT OF SOCIAL WELFARE
ALBANY

October 8, 1945

Mr. James A. Simpson,
Clerk, Board of Supervisors, Ulster County,
Court House, Kingston, New York.

Dear Mr. Simpson:

On September 12, 1945, a survey of the Ulster County Home was completed by Miss Helen M. Lawlor, R. N., on behalf of the State Board of Social Welfare. It is encouraging to note that an architect has been retained to prepare plans for a new building. We urge that the preliminary drawings be submitted to this Department promptly so that actual work on the project may be started as soon as possible.

The fire protection was considerably improved by the replacement of all fire hose and the purchase of additional fire extinguishers. However, there are still many hazards which are a matter of concern to this Department. Recommendations have been submitted in previous reports of general inspection to overcome these defects. It is suggested that fire regulations be adopted and explained to both residents and employees so that a quick evacuation of the buildings can be accomplished in a fire or smoke emergency.

The condition of the men's home has been considerably improved by repainting the interior, replacing the mattresses, providing new dining room chairs and engaging the facilities of a professional exterminating company. Unfortunately, the standards of housekeeping in this section are still sub-standard and many unsanitary practices still prevail such as the use of common drinking cups, roller towels and night vases.

Additional staff is needed to care for residents, maintain the buildings in proper condition and do the laundry work. The present arrangement whereby one resident is responsible for doing the Institution laundry work by hand is entirely unsatisfactory. Use should be made of the laundry machinery for maximum efficiency or else arrangements should be made to send this work to a commercial laundry.

The women's home was made more comfortable by the provision of separate dining facilities and attractive sitting room furnishings.

It is our understanding that Miss Lawlor discussed with Mrs. Kniffin and the cook the importance of accurately recorded menus in order that the dietary may be properly evaluated. Suggestions were made regarding supplementaing the dietary with fruit and providing more substantial supper menus.

The Home is not in compliance with the Social Welfare Law regarding medical care. Reports of complete physical examinations are not on file for residents admitted within the past two years. Notations regarding physician's visits, orders for medictation and treatment and patient's progress are not maintained. Adequate medical records are an essential safeguard to the Home and the residents as complete medical records show if the efforts of physicians are in accordance with reasonable expectations of present day medicine. The results of medical services can easily be analyzed as the records show the quality and quantity of the work done.

Our past practice of submitting a detailed report at the conclusion of a survey has been discontinued. The survey findings are on file in this office for future conference if desired.

We appreciate the courtesy extended to Miss Lawlor by Commissioner Kniffin and his staff.

Sincerely,

R. B. GUILD,
Area Director.

COUNTY OFFICERS' ASSOCIATION
STATE OF NEW YORK

To Chairmen and Clerks of Boards of Supervisors:

We have received requests from several counties for information concerning the amount to be provided in County budgets for membership in our Association for the year 1946.

As in the past, this amount will be based on each county's assessed valuation, which we find to be the fairest method of apportionment of which we have knowledge.

We enclose a copy of the table we use and as indicated thereon, your County's share is $150.00. We would appreciate your handing this information to your finance committee or budget director for consideration and subsequent approval by your Board.

It would save considerable time for your secretary, which could be put to other use for our Association, if arrangement for scheduling payment of this amount sometime during the month of January, 1946 could be made by your County Treasurer or Comptroller.

With a return to normal and resultant availability of more and better services, we hope to be able to put into effect methods discussed for the past two years for increasing our educational and informative service to counties.

With appreciation of your cooperation, I am

Sincerely yours,

DONALD C. SCRIBNER,
Executive Secretary.

It is also requested that there be appropriated from the County Road Fund a sum of sixty thousand dollars ($60,000.00), subject to the approval of the State Department of Public Works, such sum to be expended, under the direction of the County Superintendent of Highways, for the removal of obstructions caused by snow.

ULSTER COUNTY CLERK'S OFFICE
KINGSTON, NEW YORK

November 9, 1945

To: The Board of Supervisors
of the County of Ulster,
Kingston, N. Y.

Honorable Sirs:

May I respectfully request your honorable body to appropriate the sum of $1,500 for the purpose of book, map and record repair and renovation in the office of the County Clerk for the ensuing year.

You will kindly note that this request is in excess of the amount requested in previous years. Experience of the past couple of years has shown that the amount of $1,000 is insufficient to keep pace with the required repairs and for that reason an additional $500 is requested.

Respectfully yours,

R. A. SNYDER,
County Clerk.

CITY OF KINGSTON LABORATORY
KINGSTON, NEW YORK

November 12, 1945

Mr. James A. Simpson, Clerk
Ulster County Board of Supervisors
Court House, Kingston, New York

Dear Mr. Simpson:

The Board of Managers of the City of Kingston Laboratory at a meeting November 9, 1945, considered the projected activities of the Laboratory for the coming year. It is the expressed wish of the Board that as soon as possible the Laboratory Staff be reestablished on the same excellent footing that existed immediately before the war. This will necessitate bringing back to the Staff some of the men who left to enter the Armed Services, and in view of economic changes, must necessarily mean salary adjustments upward. Also anticipated increases in prices in materials and supplies necessitate additions to the budget.

All of these items will make it necessary to increase the budget of the Laboratory approximately $10,000.00 over that for 1945, but most of this budgetary increase, it is believed, can be met by increased revenues coming to the Laboratory for the increased services. By having the City appropriate approximately $2,000.00 more in tax funds and similar amount of State Aid over the budget of 1945, it appears that it will be possible to carry on the Laboratory work in 1946 with increased efficiency and satisfaction to those served, without requesting additional funds from the Board of Supervisors. The Laboratory Board therefore, respectfully requests the Ulster County Board of Supervisors to appropriate $12,000.00 for the laboratory expenses for 1946; half of which will be refunded as State Aid.

A contract similar to that of 1945 may be entered into with the Board of Supervisors as has been the case for many years past. A report for the work done for the County beginning November 1, 1944 and ending October 31, 1945, has previously been submitted. You will gather from this report that the value of the work done is estimated to be far in excess of $12,000.00 received from the County over this period. It should be clearly stated, however, that this total expressed in dollars is merely a figure arrived at by assigning theoretical charges for each examination reported. These charges were instituted years ago when the cost of such

examinations closely approximated these figures. These costs no longer are as great because of expanding services and increased volume. For 1944 it would appear that the net cost amounts to something slightly more than one-half of these assigned charges. These charges are used in the computation merely for comparative purposes. The examinations listed in the work-report are those of a Public Health character and are done without charge. They include those examinations which would be handled in a similar fashion were the Laboratory owned and operated by the County rather than the City.

The proposed budget for 1946 was explored in some detail at the last meeting of the Board and the tentative budget not yet approved by the Board of Managers or the Common Council of the City is $56,020.00. The estimated revenue is: From fees collected for paid work, including revenue from blood and plasma sales, $29,380.00; City of Kingston tax levy, including state refund, $14,640.00; which leaves a balance of $12,000.00 to be received from the Board of Supervisors..

The Laboratory fees have remained essentially unchanged since they were previously reported, and appear to be very moderate charges. These charges apply only to examinations which are not strictly of a Public Health character. Charges for blood and plasma are exceedingly reasonable, especially when the blood or plasma is replaced by the friends and relatives of patients receiving such. When such replacements are not made and much of these products is used, the charges may become exorbitant to any one patient, but when this is so, adjustments can be made after consultation with the Laboratory Director to a level the patient can afford. The chief objective of the charges is to stimulate replacements, and it would seem therefore, at the present time that a fairly high charge should be made otherwise family and friends might find it easier to pay the charge than to procure donors for the bank. The charges made to hospitals for solutions prepared in the Laboratory are about one-half those made by commercial firms for similar solutions, and these reduced charges have effected considerable savings to the hospitals.

Laboratory work is denied to no one because of his inability to pay the established fees. Work for indigents is done without charge to them or to the Welfare Boards in charge. Many of those borderline cases where sizeable laboratory charges would work a distinct hardship, may have their bills discounted to an amount which they are able to pay.

Recently we have learned from the State Auditors that discounts to groups of individuals such as physicians and their families, clergymen, practicing nurses, etc., which have been granted since the laboratory began its operations, are illegal. By unanimous vote of the Board of Managers this practice was ordered stopped October 1, 1945. From this time forward only persons in these categories who are willing and can show that their financial status is such that they cannot pay laboratory charges without undue hardship will be eligible for discount.

Very truly yours,

J. S. TAYLOR, Director.

ULSTER COUNTY BOARD OF SUPERVISORS
STANLEY F. KELDER, SUPERVISOR
TOWN OF ROCHESTER—ACCORD, N. Y.

November 12, 1945

To the Board of Supervisors,

Gentlemen:

Owing to the fact that foxes have increased in the County of Ulster very much and are doing an alarming amount of damage both to poultrymen and to wild life, and the present rate of bounty which is being paid does not encourage hunting and killing of foxes, I would strongly appeal to the committee on appropriations to increase the bounty to two dollars on red foxes and three dollars on grey foxes, which would, I think, encourage the killing of foxes and thereby cut down the damage done by them.

Very respectively submitted,

STANLEY F. KELDER, Supervisor

VETERANS' MEMORIAL HOSPITAL
ELLENVILLE, N. Y.

November 13th, 1945

Board of Supervisors of Ulster County
Kingston, New York

Gentlemen:

For a number of years the County Board of Supervisors has given financial assistance to the Veterans' Memorial Hospital in the amount of $2,500.00, for the aid and relief of poor persons permanently or temporarily within the County of Ulster, and alleges:

That your petitioner is a membership organization duly organized and existing under and by virtue of the laws of the State of New York. That its certificate of incorporation was duly filed in the office of the Clerk of the County of Ulster on the 18th day of September, 1923.

That the corporate purpose of the Veterans' Memorial Hospital, as expressed in its certificate of incorporation, is as follows: "The objects for which the corporation is to be formed are to purchase, erect, establish and maintain a hospital and dispensary."

Veterans' Memorial Hospital is a rural hospital serving a territory about fifteen miles square, in the southern part of Ulster County. This territory is very thinly settled, having a normal population of about six or seven thousand inhabitants in the winter season and a much greater population in the summer season, due to the fact that there is a great influx of summer boarders from New York City in this territory during the summer months.

There are many poor people within this territory who from time to time require the service of the hospital but cannot, in a great many instances, pay anything for the accommodation, care and treatment which they receive; and there are others who require the service of the institution and can pay only a small portion of the costs of their care and treatment in such on institution. In addition to this, there are many summer boarders who, during their vacation in the summer, become sick and are disabled; who are brought to the institution for care and treatment and are unable to pay either in full or in part for the services which are rendered to them. Inasmuch as the Veterans' Memorial Hospital is a charitable institution, it has never turned away any one who was in need of its service, regardless of whether or not such an individual could make payment of all or any part of the costs of care and treatment rendered.

Since the war, there has been a substantial increase in expense to the hospital, covering such items as salaries, wages, food, medications and supplies. In view of this, we earnestly request that your Board make your appropriation at least $2,500.00, to assist said hospital in caring for such poor and indigent patients.

Your petitioner further states that Veterans' Memorial Hospital was established, erected and maintained as a monument and memorial to the ex-servicement of World War I and that its name clearly identifies it as such.

VETERANS' MEMORIAL HOSPITAL,
C. D. RAYMOND,
President, Board of Directors.

November 13, 1944.

Honorable Board of Supervisors
of Ulster County

Gentlemen:

We submit the following request for appropriations beginning November 1, 1945 and ending October 31, 1946:

County Home—Inmates	$ 16,000.00
Repairs at the County Home	2,000.00
Old Age Assistance	110,000.00
Old Age Assistance—Funeral Fund	10,000.00
Aid to Dependent Children	20,000.00
Aid to the Blind	1,500.00
Welfare Administrative Account	32,000.00
Grand Total	$191,500.00

The above is respectfully submitted for your consideration.

Commissioner of Public Welfare.

CHILDREN'S COURT OF ULSTER COUNTY
JUDGE'S CHAMBERS
KINGSTON, N. Y.

November 15, 1945.

To the Honorable, the Board of Supervisors of
Ulster County,
Court House,
Kingston, N. Y.

Gentlemen:

Section 21 of the Children's Court Act of the State of New York, as amended, reads as follows:

"No child coming within the provisions of this act shall be placed in or committed to any prison, jail, penitentiary or lockup, or other place where such child can come in contact at any time or in any manner with any adult convicted of crime or under arrest and charged with crime. Unless the county shall have provided suitable accommodations for the detention of children held for hearing or as witnesses, the court or the judge may arrange for the care of such children temporarily in a private home or in the custody of some fit person, subject to the supervision of the court, or with any authorized agency maintaining a suitable place of detention for children.

A reasonable sum shall be appropriated to the court by the Board of Supervisors of the county for the care of children so detained."

There are times during the year when it becomes necessary for me, as Judge of the Children's Court, to detain children overnight or longer. Section 21 expressly forbids the detention of children in the jail or any part thereof where they may come in contact at any time or in any manner with any adult convicted of crime or under arrest and charged with crime. Formerly we have used some of the homes in the City of Kingston for such detention, but that necessitates the placing of deputy sheriffs in such homes during the period of such detention. Furthermore, I am now convinced that there is no suitable home in the City of Kingston for such detention. Accordingly, each time it becomes necessary for me to detain children the problem is more complex.

I have made inquiries concerning available space in the Court House and find that there is a room underneath the Sheriff's Office which might be equipped for use as a place of detention. This room was formerly used as a kitchen and is not part of the jail and has no bars on the windows. A partition could be placed therein, making two rooms, and the necessary plumbing fixtures installed in each room, such as a toilet, bath and wash bowl.

I would respectfully recommend that your Honorable Board take immediate steps to set up suitable detention quarters for the detention of such children as it may be necessary for me to detain, and that said quarters be placed under the supervision of the present Matron of the Ulster County Jail.

If your Honorable Board does not see fit to comply with this recommendation, I would then respectfully request that a reasonable sum be appropriated by you for the care of children detained in a private home or in the custody of some suitable person subject to the supervision of the Court. If the latter is done, of course, it will mean the hiring of additional deputy sheriffs to place in the respective homes where children may be detained.

I might add that during the time I have presided as Judge of the Children's Court in this County the average number of such children ordered detained has been from six to twelve per year.

Very truly yours,

JOHN M. CASHIN,
Judge of the Children's Court.

COUNTY COURT OF ULSTER COUNTY
JUDGE'S CHAMBERS
KINGSTON, N. Y.

To the Honorable, the Board of Supervisors of
Ulster County,
Court House,
Kingston, N. Y.

November 15, 1945.

Gentlemen:

There is attached to the Office of the County Judge and Judge of the Children's Court of this County a Probation Officer who is doing and has done admirable work. However, he is seriously handicapped in performing his duties because of certain bookkeeping which must necessarily be done. In the annual report of the Probation Officer for this year, you will note that there has been collected through the Probation Officer of the County of Ulster the sum of $22,839.61. If this amount had not been collected, the County of Ulster or the City of Kingston might have had to pay a greater sum or a sum at least as great for relief. The collection of this money and the disbursement of it requires a great deal of bookkeeping and

more than 50% of the Probation Officer's time is spent in taking care of the necessary books, deposits of money and the drawing of checks.

In addition to the above, the Probation Officer must submit to me, either as County Judge or Judge of the Children's Court, a complete report of the history and family background of each and every person brought before me in these courts. This means that the Probation Officer must travel throughout the entire County to interview various people so that the proper reports can be submitted to me. This,of course, also takes up a great deal of his time and his endeavors in this line are often curtailed because the time that should be spent on these investigations is necessarily used by him in bookkeeping and clerical work. In addition, all of these reports must be typewritten by him and, inasmuch as he is not a typist and must use the "two-fingered" method, much time that could be spent on investigations and interviews with children and adults is necessarily devoted to typing.

I am a great believer in probation and I have had this belief strengthened because of the number of cases in which we have been successful in using probation. I feel that the probation system in Ulster County could be greatly strengthened and could become a much more effective arm of the Court if the Probation Officer were relieved of the burden of bookkeeping and typing so that he could devote all of his time to making investigations and keeping in touch with those placed under his supervision. I believe that the time has arrived when a stenographer-typist with some knowledge of bookkeeping should be added to the Probation Department of this County. If that were done, all of the bookkeeping and typing could be lifted from the shoulders of the Probation Officer and he would be free to make himself a virile agent for not only rehabilitation of grown-ups and children but, in many instances, might aid in the prevention of crime and acts of delinquency.

I therefore respectfully recommend that your Honorable Board give serious consideration to the creation of a position of Clerical Assistant to Probation Officer of this County.

Very truly yours,

JOHN M. CASHIN,
County Judge.

November 16th, 1945

James A. Simpson, Clerk,
Board of Supervisors,
Kingston, N. Y.

Dear Sir:

We are advised by the State Comptroller's office that it will be necessary for Ulster County to raise approximately $16,447.58 as Ulster County's share of contribution to the State Employees Retirement System for the nine moths period ending March 31st, 1945, $13,251.98 of this amount being a charge against the County as a whole, on the sum of $2,149.10 being a charge against the County outside the City of Kingston. The State having changed their fiscal year from July 1st to April 1st, this amount is based on a nine months period instead of twelve months and the additional amount for the extra three months will be included in next year's figures.

Very truly yours,

A. CASHDOLLAR,

Re: Highway #5508

Gentlemen:

It is requested that the County of Ulster quitclaim a certain narrow strip of land about 486 feet long and about 10 feet wide at its widest point and narrowing down to nothing at both ends, on the easterly side of Route 9W at West Park in the Town of Esopus to JOSEPH P. HARDING and CAROLINE T. HARDING, his wife, for the nominal consideration of $1.00. The reason for this request is that when the above highway, being part of Route 9W, was widened in 1929 a Lis Pendens, or Notice of Condemnation Proceeding, was filed in the County Clerk's Office with a map and an Order of Condemnation, together with the Oath of the Commissioners, condemning a strip of land adjacent to the highway of 0.177 acres. Later a change was made in the location of the roadway by the State Engineers so that less land was required. In the settlement with the then land owner a deed was given to the County for 0.094 acres, but through the technical legal effect of filing the Lis Pendens and oath of the commissioners title had immediately vested in the County to the 0.177 acres.

The purpose of the quitclaim is to reconvey the title of the balance of 0.083 acres of the land not required for highway purposes to the adjacent land owner. In another sense it may be said that the purpose of this deed will be to correct the record of an action commenced by the County of Ulster.

Trusting that your Honorable Board will take favorable action at an early date, I am

Your very truly,

MARTIN F. COMEAU.

ANNUAL REPORT FOR 1945 OF THE COMMISSIONER OF JURORS

FRANK J. McCARDLE, Commissioner

COURT HOUSE, KINGSTON, N. Y.

November 12th, 1945

To the Honorable Board of Supervisors:

Gentlemen:

I received my appointment as Commissioner of Jurors on August 13th, 1945. Since that time I have met with the Supervisors of the City and each of the Supervisors and Assessors in each of the twenty Towns of the County and prepared lists of prospective Jurors. I have sent questionaires to each, about two thousand in all. To date all but about one hundred

have been returned. I have sent followup post cards to the delinquents and expect to start compiling the list of Jurors about November 19th. After the questionaires were returned and the persons who were disqualified according to Law and the persons who were entitled to exemption according to Law the list has been reduced to about 1050. I think this is a great saving to the County as well as a great convenience to the prospective Juror. Without any doubt after January 1st when my list takes effect I think our Jury System in Ulster County will be much improved. At this time I ask your Honorable Board to appropriate $100.00 for traveling and other necessary expenses for the year 1946.

Respectively submitted,

FRANK J. McCARDLE,
Commissioner of Jurors.

REPORT OF THE ULSTER COUNTY NURSING SERVICE

From November 1, 1944 to October 31, 1945

The Public Health Nursing Committee of the Board of Supervisors hereby submits its report for the year ending October 31, 1945. Six bi-monthly committee meetings were held at which time members heard reports of the county public health nurses. Study and consideration was given to many county public health problems.

There are eight county nurse positions receiving state aid assistance. All positions were filled in part throughout the year. Several changes occurred during the year when four nurses, namely, Charlotte Ogden, R.N., Maria Berens, R.N., Elizabeth Karzendorfer, R.N., and Helen Downing, R.N., resigned because of personal reasons. On duty throughout the year were four county nurses, Wilma Petroff, R.N., Marjorie Teas, R.N., Hilda Coddington, R. N., and Beatrice Taylor, R.N., and one state nurse Anne Cassidy, R.N.

Every effort is being made to secure additional public health nurses. With the return of veteran nurses, opportunities for making replacements in county nurse positions will occur.

In the past twelve months Ulster County public health nurses made a total of 10,289 home visits classified as follows:

Bedside nursing visits	3,425
All other visits to and in behalf of cases	6,864
Infant	1,839
Preschool	2,110
School	1,134
Adult	4,252
Health Supervision	4,397
Antepartum	573
Delivery	20
Postpartum	683
Tuberculosis (diagnosed)	400
Tuberculosis (other suspicious or contact)	571
Syphilis (diagnosed)	59
Syphilis (contact)	3
Communicable Disease (Diagnosed)	324
Communicable Disease Other	333
Non-communicable	2,216

These 10,289 home visits were made by public health nurses in all sections of the county under the direction of private physicians and health officers. Bedside visits include those made to patients acutely ill with pneumonia and contagious diseases, as well as those suffering with chronic illness such as heart trouble, paralysis and tuberculosis. The public health nurses give care to the patient, and whenever possible demonstrate and teach a responsible member in the household to give this care throughout the day.

Visits other than bedside were made to assist in correcting conditions found in school medical inspections, teaching child care and development and giving aid to those with physical and mental handicaps.

More than 1,200 home visits were made to maternity patients before and after delivery for the purpose of helping expectant mothers with their plans for confinement and teaching the hygiene of pregnancy. The nurse also gives home nursing care to the new mothers and baby following delivery in the home and when the patient returns from the hospital.

Over 1,800 visits were made to infants under one year of age. This is one of the most important periods of life when growth is most rapid, likewise the susceptibility to disease is greatest and health supervision especially needed.

Every applicant for maternity and infant care under Federal Emergency Maternity Infant Care program for Servicemen's wives and babies is referred to the public health nurses in order to give these patients every advantage of home nursing care and teaching.

Many children who are apparently well at birth unfortunately develop health conditions which, if allowed to go undiscovered, often become major problems in later life. Throughout Ulster County, Child Health Consultations were held in the towns of Shandaken, Olive, New Paltz, Esopus, Ulster, Shawangunk, Lloyd, Rochester, Plattekill, Woodstock and Marlborough.

Seventy-one such consultations were held with an attendance of 753 children. In connection with this service there were 86 Dental Trailer clinics which provided 500 visits for dental corrective work. Children not eligible for the Dental Trailer were taken care of through private dentists.

Considerable effort is made to protect the people of Ulster County against communicable disease; nineteen clinics were held with a total of

602 receiving smallpox vaccination and diphtheria immunization. For the first time a number of clinics for the protection of children against whooping cough were held.

More than 650 home nursing visits were made in behalf of communicable disease control. It is desirable to find tuberculosis in its early stages in order to: obtain medical care; to promote maximum improvement; to prevent the spread; and achieve all this at the lowest possible cost to the county. Public health nurses assisted at 47 Ulster County Tuberculosis Hospital Chest Clinics with a total of 850 patients. In addition, 971 home visits were made to patients recently diagnosed as having tuberculosis and to those who have been exposed to tuberculosis or have suspicious symptoms.

Public health nurses give a considerable amount of service in schools not carried by school nurses assisting with correction of defects found in the school medical inspection, as well as working with teachers and parents in planning for better health of the school children. More than 900 interviews and demonstrations have been given to teachers and parents.

Public health education activities of the county nurses include: 20 health talks to organized groups of citizens with 750 in attendance; 12 classes on various aspects of home nursing care and two radio broadcasts.

To complete the health services rendered by nurses in Ulster County mention should be made of the work done in behalf of children and others who are handicapped by the effects of infantile paralysis and other acute infections causing crippling conditions. More than 800 visits were made by the state orthopedic public health nurse. Four orthopedic clinics were held with 185 attendance.

The organized public health lay members have given valuable assistance to the progress of the work in Ulster County through their help at clinics, planning group educational work, and providing nurses with clinic and office quarters. The public health nurses working with these committees have been able to bring health education to many communities on subjects such as: cancer, rheumatic fever, tuberculosis, venereal disease and poliomyelitis.

In looking forward to a new year the public Health Nursing Committee's aim is to fill the vacant positions and thus give a more complete health nursing service to the County.

ANNUAL REPORT OF THE PRESIDENT OF THE BOARD OF MANAGERS OF THE ULSTER COUNTY BOARD OF SUPERVISORS FOR THE YEAR ENDING OCTOBER 31, 1945

Gentlemen:

Placing before you a brief account of our stewardship of the Board of Managers of the Ulster County Tuberculosis Hospital, I am reminded that the hospital is entering upon its fifteenth year of operation. I am the only member left of the original Board of Managers, and during the fourteen years the hospital has been operated, your Honorable Body has been unfailing in its interest; always gracious and magnanimous in its financial support. Your confidence in the management of the hospital has been a constant inspiration to the Board of Managers, and I wish to assure you of our deep appreciation.

The medical service, under the Superintendency of Dr. Frederic W. Holcomb, assisted by Dr. Irving Josephson, is too well and widely known for any word of mine to add luster. Dr. Holcomb will give you in detail a survey of that service.

The Board wishes to express its appreciation of the outstanding and tireless services of Miss Elizabeth Kraus, Superintendent of Nurses, and her corps of nurses.

In the care of the physical property I pointed out a year ago the need of certain equipment. This has been provided, and the necessary painting of the interior of the building has been done by our employees. We feel the building is in perfect condition.

Fred Richter, who has been in charge of the laundry continuously since our opening, asked to be relieved from further service because of his age and health. He has been replaced.

While the enforced conversion from oil to coal shows an actual saving in the cost of fuel of approximately $1,000 yearly, the soot and dirt from the use of soft coal has made the cleaning of the building a tremendous burden.

The hospital automobile has continued to be of great use this year in the conveying of employees living outside to and from work. This requires the services of an employee as chauffeur almost constantly, and in addition to the cost of upkeep of the car we have a monthly taxi bill of approximately $100.00. Our hospital car shows a present mileage of approximately 200,000 miles, and the Board must consider soon the purchase of a station wagon to replace it.

This year the total operating expenses amounted to $76,588.73. The gross per capita cost per day per patient was $4.07; the net per capita cost $3.52. Our income from patients this past year is higher than it has ever been, $10,373.91; a figure we cannot hope to approach this coming year by some $4,000 or $5,000. The total number of hospital days was 18,803, or 847 more than last year. That we have operated more hospital days and yet kept our per capita cost at approximately the figure of last year reflects great credit on our Institutional Manager, Mrs. Mary Richards Weber. The Board would express it appreciation to Mrs. Weber. The matter of food purchasing has presented difficult problems this past year, as you can well understand. The cost of food for the year 1944-45 shows $15,244.06, or $52.00 less than the preceding year, although we had to pay two cents more for milk per quart. In view of the increased cost of food, we feel this is an excellent record.

The Ulster County Farm, through the County Welfare Commissioner, Mr. Albert Kniffin, has kept us supplied with fresh eggs at greatly reduced costs, and Mr. Kniffin from time to time donated fresh vegetables to the hospital, for which we desire to thank him. The Federal Food Administration gave us fifteen crates of apples during the year.

To our chef, Henry Geschwinder, we extend our thanks for his loyal and efficient service.

More acutely than ever is the problem of providing more and better living accommodations for the maintenance of domestic employees. We could have more efficient service were we able to provide living quarters for such employees.

In the absence of Dr. Joseph Jacobson, who is in the service of the Navy where he has done and is doing distinguished service, we have been sending surgical cases to the State Homer Folk Tuberculosis Hospital at Oneonta, New York. Seven patients were treated at this hospital this past year at a cost to the county of $1,202.50. It was a great pleasure to welcome Dr. Jacobson at our Board meeting in September, and we look forward anxiously to his return to Kingston.

We were very happy to welcome to our Board the Right Reverend Stephen P. Connelly, whom you appointed in December 1944. He has added greatly to the efficiency and harmony of the Board of Managers.

The Board has been favored with a legacy from the Morris Yallum estate of $100.00, which was turned over to the County Treasurer in November 1944.

We have been notified of a bequest of $100.00 from the late Lena Lankisky.

We have on deposit in the Kingston Savings Bank $400.00 which was reseived from friends of the late Dr. Nettie Weintraub, the money to be used as the Board of Managers directs. For these legacies and contributions we are indeed grateful; also to the friends of the hospital who have donated food, flowers, magazines, etc., we extend our thanks for their thoughtfulness in remembering our patients.

The hospital recently lost a good friend in the passing of the Reverend John W. Hughes. Father Hughes was a generous contributor yearly to the movie fund of the patients. We cannot urge too strongly the value of this fund to the patients and we solicit contributions for same.

The Board is grateful to Mrs. Holcomb for her active interest in the work of the Auxiliary of the hospital, especially as the maintaining of the movie fund service is due to her personal efforts in securing sufficient funds for this entertainment.

For the loyal service of all the employees of the hospital I desire to express by thanks. Conditions have caused a tremendous turnover of employees which militates against the smooth running of the hospital.

The Board at its annual meeting voted unanimously a uniform increase in salary to all its employees.

I desire to express my appreciation of the interest and co-operation of every member of the Board of Managers who has made the work of the Board a delight.

With this account of the year's work in the management of the Ulster County Tuberculosis Hospital, I close with the unanimouse request for appropriation from your Honorable Body for $68,000 to carry on the work for the coming fiscal year, $5,000 less than you so generously granted last year.

Respectfully submitted,

F. B. SEELEY,
President, Board of Managers.

REPORT OF THE ULSTER COUNTY TUBERCULOSIS HOSPITAL FOR THE FISCAL YEAR ENDING OCTOBER 31, 1945

To: Dr. Frank B. Seeley, President, an dot the Board of Managers of the Ulster County Tuberculosis Hospital:

In presenting my annual report to the Board of Managers and to the Board of Supervisors, I can state that we feel gratified concerning the progress that has been made during the past year in the development of the tuberculosis program in Ulster County. In spite of the many limitations that we have had to contend with in the shortage of physicians and in the difficulties of obtaining the necessary help in our Hospital, we have not only continued our hospital and clinic activities but have gone into the field of industrial and school surveys. This has been accomplished by the active cooperation of the Ulster County Tuberculosis and Public Health Committee who have extended the use of X-rays into the various industrial plants and among the teachers and pupils of our public school system in the county. Miss Katherine Murphy has done a magnificent job in the planning and supervision of this project. We are also indebteded to Dr. William Siegal and Dr. George Weber, our former Assistant Physician, for their help in examining X-ray films. The New York State Tuberculosis Division in Albany have extended through these physicians valuable aid. This work, as you should all know, is financed by the sale of Christmas seals throughout the county and our program has been aided immeasurably by the many industrial concerns who have paid for actual

cost of the X-raying their employees. I wish to congratulate them for this very valuable assistance in carrying on our work in the early diagnosis and in the discovery of cases which may be highly contagious to the employees in the various industries. It is only by close cooperation with the medical and public health agencies and with the people of the county that a successful tuberculosis program can be carried out. The fact that the tuberculosis death rate has not risen to any appreciable extent during the past years in which we have been engaged in a world war speaks well for the results of constant preventive measures. During the war many millions of men and women entering the armed forces were X-rayed before their induction. Many early cases were discovered in this way and we have observed and treated a large number of our residents that have been diagnosed in the induction centers. With the present effort to extend this program so that it includes many men and women in civilian life we are discovering cases of tuberculosis in earlier and therefore more curable stages. However, we must still realize that in many instances cases are not examined or X-rayed until they are in the far advanced stages. With the help of educational measures directed to the people of our country and with the assistance of the medical, public health and various other agencies, we feel that we may attain a tuberculosis death rate within the next twenty years that might be termed "the irreducible minimum."

In the past year, 3,869 X-rays were taken in our industrial survey among the industrial groups of the county and among the teachers and pupils of our school system. The results are as follows:

Total X-rayed	3,869
Negative	3,615
Active Tuberculosis	26
Suspicious Tuberculosis	12
Healed Tuberculosis	64
Old Pleurisy	12
Neoplasm	3
Cardiovascular	32
Healed Primary Tuberculosis	64
Miscellaneous Chest Findings	41

When medical conditions are discovered during these surveys the family physician is notified and the individual is thus assured of medical supervision through his own family doctor. We hope that in the future this work can be extended so that practically all people in the country will be able to have the benfit of X-ray examinations.

The hospital work has been carried on successfully both from the medical and administrative standpoints. Every hospital in the country has had many difficulties in maintaining their staffs during the past four years and we have been no exception to this rule. I feel however, that our clinic program and the care of the patients in the Institution has been adequate in the face of many obstacles. I wish to extend our thanks to our nursing staff and to the employees in all departments for faithful and efficient services during a very trying period.

The work of the Institution can be summarized as follows:

November 1, 1944—October 31, 1945

Admissions 48, including 6 re-admissions.
Discharges 43; Deaths 17.
Total patient hospital days 18,803.

New clinic cases discovered.....30
Minimal 8
Moderately advanced 10
Far advanced 12

Hospital cases reported (patients not examined at clinic) 15.
Cases removed from roster file as healed 35.
304 examinations made on 196 former patients.
1,946 X-rays taken on 1,705 individuals in clinic.

The hospital examinations added to the number of 3,869 industrial X-rays makes a total of 5,815 for the year.

Active cases of tuberculosis on roster as of November 1, 1945:

City	177
County	285
Total	462

The total expenditures for the operation of the Hospital and the Out-Patient Department is as follows:

Salaries and Wages	$ 39,911.08
Food, Ice, Water	15,244.06
Fuel, Ligh, Power	5,307.24
Repairs, Maintenance, Replacements	3,544.35
Photo-Roentgen X-Ray Equipment	3,430.85
Medical and Surgical Supplies	1,174.15
Homer Folks Tuberculosis Hospital (Service to pts)	1,202.50
X-ray and Clinic Supplies	1,555.44
Cleaning Supplies	592.92
Household Supplies	693.63
Laundry Supplies	376.28
Transportation (Taxi Bill)	1,227.25
Hospital Car Expense	561.52
Office Supplies	244.16
Insurance	163.19
Telephone	530.95
Sundry Expenses	523.16
Elevator Contract	306.00
Gross Expenditures	$ 76,588.73
Income from patients	10,373.91
Net Expenditures	$ 66,214.82
Gross per capita	$ 4.07
Net	3.52

The Administrative Department of the Hospital under the supervision of Mrs. Mary Weber has carried on the business affairs in an efficient and economical manner. Under the direction of Miss Elizabeth Kraus, our nursing staff has rendered excellent care to our many patients. Dr. Irving Josephson has carried on the duties of Assistant Physician at the Hospital in a very satisfactory manner. Mr. Leonard Boice has fulfilled the duties of Maintenance Foreman splendidly during the past year. We owe the entire staff and the heads of the departments a great deal for their loyalty and efficiency.

We have recently installed a Photo-Roentgen unit, similar to the X-ray apparatus which is used in the United States Army and Navy, for use in our clinic. This will result in a considerable saving in the cost of X-ray films in the future. This equipment was purchased by bequests which have been left to the Hospital by public spirited citizens of Ulster

County. I hope that similar bequests will be made to the Institution in the future in order to assist in developing and extending our program in the prevention and control of pulmonary tuberculosis.

The Ulster County Tuberculosis Hospital has now served the people of the county for over fourteen years. The physical condition of the Institution has been kept up in a very satisfactory state and the many visitors who come to the Hospital often remark on the cleanliness and attractive appearance of the buildings and the grounds.

I hope in the years to come the same close cooporation will continue to exist between the Board of Managers, under the leadership of Dr. Frank B. Seeley, and the hospital staff. I trust that the same continued interest will be manifested by our Board of Supervisors in carrying on and extending the work of our Sanitorium, which contributes to the health of so many of our Ulster County citizens.

Respectfully submitted,

F. W. HOLCOMB,
Superintendent.

The statistical report may perhaps need further explanation by your director.

The services being rendered by the Bureau to the veterans and their dependents have won favorable acclaim outside the county as well as within. We feel that we have for our population the best county set-up which exists in New York State. This is recognized by the State Department of Veterans Affairs. Representatives from that department have

made regular inspections of our county set-up and their comments have been very favorable.

The State of New York in setting up Veterans Service Bureaus in each county of the state recognized that it must care for the adjustment of the many millions of returning service men who are faced with the problem of adjustment from military to civilian life. As the Ulster County set-up provided under the New York State law, we feel we are fulfilling our obligation to these Ulster County men who are returning. The problem is not only the individual problem of the men, it is a county and community problem as well. The economic welfare of our communities, both town and county depend largely upon whether or not these men are absorbed into the every day life of the town and county. The number of ex-service men the bureau has assisted in planning their future and getting correctly started on their future course is most gratifying. The number who are entering schools and training courses in Ulster County has been very much above the average figure for the state or for the nation.

The preceding statistics do not show the present number who are taking advantage of the rehabilitation features of the G. I. Bill of Rights. Suffice it to say that 137 service men were counselled and directed into channels of higher education during the past month.

Another outstanding feature of the service rendered by the bureau which does not show in a statistical report in the services rendered to widows, dependent children and parents of those of our citizens who made the supreme sacrifice in the service of their country. These individuals have certain benefits and claims against the federal government which at times are most difficult to obtain. It is very difficult if not impossible for these people to process their own claims. It is the function of this bureau to process these claims for them in their bereavement. The direct thanks as well as the indirect reports which come to the bureau daily from them is most gratifying. Your director feels that this service alone would justify the existence of the bureau.

Director.

REPORT OF WORK DONE IN CHILDREN'S COURT OF ULSTER COUNTY FROM NOVEMBER 1, 1944 TO NOVEMBER 1, 1945

To the Honorable, the Board of Supervisors of the County of Ulster:

Gentlemen:

Attached hereto is the statistical data of the work of the Children's Court of Ulster County from November 1, 1944 to November 1, 1945.

During the period covered by this report the Court disposed of 184 formal cases and 10 informal cases. A formal case is one in which a petition is filed and the case scheduled for hearing and determination by the Court. An informal case is one that is adjusted without the filing of a petition.

A comparison with last year's report reveals an increase in the number of formal cases handled this year of 36, 16 more delinquency cases, 13 more neglect cases and 21 more adult cases. There was a decrease in the number of physically handicapped cases disposed of this year of 13.

In the delinquency cases, most of the children adjudged to be delinquent were placed on probation to the Chief Probation Officer. Only 7 were committed to institutions.

In the neglect cases, the largest number of the children adjudicated to be neglected were committed to the custody of a public department or officer and, in most instances, were placed in boarding homes by said departments.

Most of the adult cases were what is known as "support proceedings" in which petitions were filed by wives or other interested parties charging a husband or father with not providing adequate support for his wife and minor children. In these cases the majority of the respondents were directed to contribute to the support and maintenance of their families. The contempt proceedings reported resulted from the neglect or refusal of certain respondents to make the payments directed by the Court to be made for the support of their dependents and, in most instances, were concluded by fining the respondent the amount he was in arrears and committing him to jail until the fine was paid.

An examination of Children's Court reports for the past fifteen years indicates very clearly that the work in this Court has increased very

substantially during the past five years. The Court is grateful to the City and County Children's Workers and the Probation Officer, whose untiring efforts and cooperation have lightened considerably the burden of this work.

Dated, November 1st, 1945.

Respectfully submitted,

JOHN M. CASHIN,
Judge of the Children's Court
of the County of Ulster.

To the Honorable, the Board of Supervisors of Ulster County:

Gentlemen:

You will find attached hereto the report of the work done in probation in the County and Children's Courts of Ulster County for the period from November 1, 1944 to November 1, 1945. I most heartily endorse all of the recommendations contained in this report, and again call to your attention the fact that clerical help for the Probation Officer is urgently needed for the proper administration of probation in this County.

I recommend that a specified sum be placed in next year's budget to be used as and for traveling expenses of the Probation Officer in going about the County, and that this sum shall be not less than Four Hundred Dollars ($400.00).

All of which is respectfully submitted.

Dated, November 1st, 1945.

JOHN M. CASHIN,
County Judge of Ulster County
and Judge of the Children's
Court of Ulster County.

REPORT OF THE WORK DONE IN PROBATION IN THE COUNTY AND CHILDREN'S COURTS OF ULSTER COUNTY, NEW YORK

November 1, 1944 to October 31, 1945

To the Honorable John M. Cashin, Judge,
County and Children's Courts,
Ulster County, New York.

Your Honor:

I submit herewith annual report of the Ulster County Division of Probation for the period beginning November 1, 1944 and ending October 31, 1945.

I acknowledge with appreciation the active cooperation that I have had from Your Honor at all itmes during the past busy year. It has been a pleasure to work with you toward our common goal, namely the rehabilitation of human beings.

In this work we have had the active and intelligent assistance of the Sheriff and his staff, City and State Police Departments, City and County Departments of Public Welfare, the Clergy of all faiths, Catholic Charities, Volunteers of America, City and County school officials and the Division of Probation of the State Department of Correction.

The amount of monies collected through this department continues to increase. The increase this year over 1944 amounts to $4,819.36. In

1944, $18,020.25 was collected while in 1945, $22,839.61 was collected as follows:

Restitutions	$ 1,631.50
Special	552.00
Family Support	20,656.11
Total	$ 22,839.61

NOTE: Item titled "special" is amount received for physically handicapped children, payments made by parents.

It is believed that a large percentage of these monies, had they not been collected by the probation officer, would have necessarily been disbursed by the City and County Welfare Departments in the form of public assistance.

During the past year there has been a sharp increase in the number of petitions filed in Children's Court, both in delinquency and support proceedings. The intake service case load increased from 50 in 1944 to 85 in 1945. The informal cases increased from 6 to 10. The probation case load increased from 42 to 65 while the number under supervision increased from 36 to 39.

The adult intake service case load decreased from 53 in 1944 to 40 in 1945. The probation case load increased from 47 to 61 while the number under supervision remained unchanged, namely 9.

No revocations of probation were made in case of adult probationers, but in Children's Court there were three revocations, resulting in commitments to institutions for deliquent children for violation of probation.

I again respectfully urge that consideration be given to the urgent need for clerical assistance for this department. At the present time I have 79 payment cases, many of which are in arrears. This figure does not include several who are making parent payments for physically handicapped children. There are a total of 174 adults and children either on probation or under supervision. It is utterly impossible to do a proper job of collecting or probationary supervision when the amount of typing, bookkeeping and other clerical work is consuming more than half of this officer's time. There are no signs that the above case load of 253 will decrease. On the contrary, the support proceedings are increasing in number each month.

With the present office space provided, privacy during intake service and interviews is impossible except in the evening and on Saturday afternoons. It is hoped that this may be remedied in the near future.

Respectfully submitted,

EDMUND U. BURHANS,
Chief Probation Officer,
County and Children's Courts,
Ulster County, New York.

COMMISSIONER OF PUBLIC WELFARE
CHILDREN'S DIVISION REPORT

November 1, 1944 - October 31, 1945

November 15, 1945

Board of Supervisors of Ulster County,
Kingston, New York.

Gentlemen:

To the Honorable Board of Supervisors, the Children's Division of the Ulster County Department of Public Welfare submits this report of its acitvities and expenditures for the period from November 1, 1944 through October 31, 1945.

As of 10-31-45, the Children's Division had under care, a total of 286 children. This means that we have 59 more children under care than we did at the end of the last year. Of the total number of children under care, 114 are in boarding homes, 20 are in free homes, 14 are in work homes, 2 are under the care of another agency, 14 are with relatives where board is being paid, 24 are in institutions, 1 in private placement under our supervision, and 97 are under our supervision in their own homes.

During the year, the Children's Division has been requested by various individuals and agencies to give service to approximately 81 families representing 190 children. These are families who, for the most part have had no previous contact with the agency. As a result of these requests, it was necessary to place 36 children in foster care. 37 children were accepted for supervision in their own home with the hope that fairly intensive work with them and their parents would result in improved care for the children at home without necessitating a complete breakup of the family. 13 children were placed in various institutions which met their individual needs. Some of the children referred for service were given various types of temporary service such as referral to another agency, child guidance clinic appointments, or general advice which might help in the solution of some particular problem.

Twenty-four children who had been previously placed in institutions were removed during the year and either returned to their own homes, placed with relatives, or placed in boarding homes, depending on the plan which best fitted the needs of the individual child. Eight children have been discharged to their own parents and eight more have been returned to their own parents from foster care but are remaining under the supervision of the Division until we feel sure that they will receive adequate care and make satisfactory adjustment. Twenty private adoptions were under consideration, having been referred to the Children's Division by the courts for study and of these 10 adoptions have been completed. 10 are still pending and on some of these the reports have already been submitted to the courts.

Along with our direct work with the children and their families we must be constantly on the look-out for good foster homes for our children who cannot be with their own families. We are at present working with a total of 71 foster homes throughout the County in which children are placed on a boarding, wage, or free home basis and during the year we have considered the applications of approximately 40 people who have

indicated an interest in taking foster children. Of this number, it has been possible to study and certify 11 new foster homes. The remainder have either withdrawn their applications after a discussion of some of the things which go into the care of foster children or their homes could not be used because they did not meet the requirements set up by the State Law which governs the certifying of foster homes for children. The foster parents with whom we are working are making a very real contribution to the entire program and their part in this work should not be overlooked.

Administrative expenses for the year have amounted to $5,151.65 for salaries and $1,746.60 for travel expenses. The salaries are reimbursed 40% by the state, if the workers meet the necessary qualifications of education and experience. Since 9/1/45 we have had the much needed ser-

vices of a part time stenographer in addition to our regular secretary for the Division.

Since August, we have had the services of a worker from the State Department of Social Welfare, Bureau of Child Welfare, whose salary is paid entirely by the state and who has been loaned to assist the Division in giving adequate care to the children. The responsibility for providing the best possible care for 286 children is a serious one. These children represent quite a few of the future citizens of Ulster County and in order that they may be helped to be valuable citizens who will be an asset to themselves and their community, it is imperative that we give them the best possible service.

Respectfully submitted,

A. D. KNIFFIN,
Commissioner of Public Welfare.

COUNTY OF ULSTER
DEPARTMENT OF CIVIL SERVICE
240 FAIR STREET, KINGSTON, N. Y.

Report of the work done in Civil Service in the Towns, Villages, Special Districts and County Departments from November 1, 1944 to October 31, 1945.

To the Honorable, the Board of Supervisors of Ulster County:

Gentlemen:

We have the pleasure of submitting to you the annual report of the work done in Civil Service in the Towns, Villages, Special Districts and County Departments from November 1, 1944 to October 31, 1945.

We are listing below the approximate number of employees whose payrolls are certified through our Department:

Classification	Number of Employees
Competitive	125
Non-competitive	201 (Approx.)
Exempt	368 (Approx.)

At the meeting of our Civil Service Commission on October 7, 1944, we accepted and incorporated in our minutes the following resolution which was adopted by your Honorable Board on July 19, 1944. The resolution reads as follows:

Whereas, the Ulster County Civil Service Commission is vested with the power and duty to hold competitive and non-competitive examinations for Civil Service Positions, for original appointments and promotional appointments in the County of Ulster, and

Whereas, many of the young men and young women of Ulster County are in the military service of our Country, and for that reason would be unable to take such examinations and thus qualify for such positions, and

Whereas, it would be unpatriotic and unjust to deny these young men and women an opportunity to participate in these examinations and thus qualify for these positions because they are serving in the Armed Forces of our Country,

Now, Therefore, Be It Resolved, that it is the sense of the Board of Supervisors that all competitive and non-competitive original appointments or promotional appointments in the County of Ulster should be on a temporary basis and only for the duration of the war and six months thereafter, and that all examinations should be delayed until such time as the war is over and these Ulster County War Veterans have returned home, so that they may have an opportunity to exercise their rights as citizens of Ulster County, to participate in competitive and non-competitive examinations for original appointments and promotional appointments.

The above resolution not only protects the Civil Service rights and Civil Service benefits of all the men and women of Ulster County who are, or were in the military service of our Country, but will allow them to compete for these Civil Service positions upon their return home.

We wish to thank our County Attorney, Mr. Frederick H. Stang for his legal assistance and guidance during this past year.

The Commission again wishes to express its appreciation for the complete cooperation it has received from the Honorable Board of Supervisors.

Respectfully submitted,

THE CIVIL SERVICE COMMISSION,

BENJAMIN H. MATTESON, Chairman,
PRATT BOICE,
JOSEPH M. DEYO.
THOMAS BOHAN,,
Executive Secretary and Examiner.

BRIEF REPORT OF THE FARM BUREAU DEPARTMENT OF THE ULSTER COUNTY FARM AND HOME BUREAU AND 4-H CLUB ASSOCIATION FOR 1945

November 1, 1945

To the Honorable Board of Supervisors:

The following are some of the major activities carried on by the Ulster County Farm Bureau during the past twelve month period. Our

nation was still at war during the first ten months. War emergency activities made it necessary to curtail most regular functions. The cessation of hostilities caused the committeemen and directors to take a very active interest in arranging a program for 1946 which will help all farmers of Ulster County make necessary post-war adjustments. During October the community chairmen met to plan the fall organization plans. All of the eighteen organized community committees held meetings, followed by meetings of all four county commodity committees. The net result was a much stronger program for the coming year.

The war period caused a continuation of the exceptionally large number of office callers at the headquarters at 74 John Street in Kingston. During the year nearly 7,000 persons stopped at the office and over 9,000 telephone calls were handled.

In spite of the poor production season in Ulster County, labor was the number one problem on Ulster County farms. Three different groups of farmers organized cooperative corporations to help meet the situation. The Ulster Vegetable Growers Cooperative, Inc., operated Camp Hayden where 159 Jamaican farm workers were housed all season. The Mid-Ulster Fruit Growers Cooperative, Inc., brought 90 additional Jamacian workers to the county. They were housed and employed on 14 different farms. Camp Wendy operated by Region II of the Girl Scouts, supplied over 100 workers for the summer period. Another camp of 30 workers was operated at Highland. Nearly 100 city youth lived and worked on farms. In addition hundreds of persons helped care for and harvest crops.

Working with the U.S.D.A. War Board and Local Selective Service Boards, hundreds of investigations and reports were made. With the cooperation of the Local Boards many experienced, essential farm workers remained on farms during the war period to help plant, care for and harvest record food crops.

The spray information for fruit growers was continued. This specialized service was sent regularly to about 800 fruit growers.

The cooperative artificial breeding association was reorganized to serve most of Ulster County. About 1,100 cows are now signed up. During the first six months over 500 cows were bred artificially. The program is expanding. It is one of the most important developments for the average dairymen to improve the quality of his herd replacements.

In December a series of five regional well-attended meetings were held to explain the provisions of the income tax regulations as they affect farmers.

Many miscellaneous activities were carried on to help farmers maintain needed food production. Every effort was made to keep farmers posted on important regulations and help them overcome shortages of many supplies.

The 1324 paid members for 1945 set an all-time record. The early returns of the 1946 pay-by-mail membership campaign are very encouraging, being comparable to the returns a year ago.

The above report was prepared from detailed monthly reports which are on file at the Farm Bureau Office.

Respectfully submitted,

ALBERT KURDT,
County Agricultural Agent.

REPORT OF THE ULSTER COUNTY PUBLICITY COMMITTEE OF THE BOARD OF SUPERVISORS 1945

This year Ulster County has had the greatest resort business it has ever known. Our hotels, boarding houses and tourist houses were filled to capacity. From early in the season, every available bungalow, cottage, cabin and camp was rented for the entire summer. Our transportation system was overloaded and our business and amusement places were overtaxed in meeting the tremendous demand. In spite of the inclement

weather in the early part of the season, the shortage of food and labor the income to our resort houses and affiliated businesses was conservatively 10% greater than the record breaking results of 1944. With the $2,500 appropriation to the Publicity Committee we published 35,000 Ulster County folders 7,500 Winter Sports Folders and advertised in eight leading New York City newspapers.

Ulster County Folders

A. F. Schoen Publishing Company printed 35,000 Ulster County Folders using the same setup as 1944 with new text, map and pictures.

In January we published 2,500 Winter Sports Folders, featuring the centers of Pine Hill, Phoenicia, Woodstock, Saugerties, Rosendale, Lake Mohonk and Ellenville. In October we published 5,000 Winter Sports covering the same centers, which will be distributed this Winter.

The Ulster County Folders were distributed through 52 agencies, such as travel bureaus, transportation companies, New York City newspapers, Automobile Associations, Oil Companies, Large Corporations, Chambers of Commerce, State Bureau of Publicity and other organizations in New York, New Jersey, New England, Pennsylvania, Ohio, Maryland, Washington, D. C., and locally through the Board of Supervisors, the Publicity Committee, Realty Board, local hotels and transportation companies, Mayor's Office and the Chamber of Commerce in Kingston, window displays in Flanagan's Store in Kingston and the Central Hudson Gas & Electric Corporation's office, and through local conventions. They were also used in answering the 4,545 inquiries which we received from 26 different states, Canada, Mexico, West Indies, South America, and a great many from our armed forces in Europe, Africa and the South Pacific.

New York Newspaper Advertising

Our advertising program ran from April 15 to September 30, covering Summer and Autumn activities. It consisted of 1768 lines of advertising in the New York News, Times, Journal-American, Herald Tribune, Sun, Post, Catholic News and Brooklyn-Eagle. These papers also printed feature stories on the County and distributed our County and Town Directories through their Travel Bureaus. The most outstanding cooperation from newspapers again this year was from the New York News. They answered 877 letters received by their Travel Bureau from our advertising in their paper without cost to us. They carried a display and distributed thousands of our County and Town Directories directly through their Resort Bureau.

All of our local newspapers gave us excellent cooperation through news releases and editorials which materially affected our success.

Town Directories

Again this year one of the outstanding reasons for our success was the 97,000 Town Directories published by the following thirteen communities: Ellenville (Town of Wawarsing), City of Kingston, Town of Marbletown, Mt. Marion, Pine Hill, Towns of Rosendale, Saugerties, Shandaken, Shawangunk, Woodstock and the Southern Ulster region including the Towns of Lloyd, Marlborough and Plattekill. These directories listed information on accommodations, rates and resort facilities desired by vacationists, which could not of necessity be included in the County folders. Our committee assisted in the designing and publishing of these directories and we distributed them through 52 agencies mentioned above and in answering direct mail inquiries.

State Bureau of Publicity

Again this year this Bureau was the greatest outside co-operative agency we had. In their publication "Vacations in New York State" two pages of text and pictures were alloted to our region. In their folder "Guide to Southern New York", the front and back covers were Ulster County scenes and contained fourteen and one-half pages of text covering 41 descriptive paragraphs on our twenty towns and the City of Kingston.

In addition they sent us 121 letters from their own advertising program and materially helped our Committee in many ways throughout the year.

Advertising Results

In 1945 we received 4,283 written inquiries from our newspaper advertising, 121 from the Bureau of State Publicity and 141 telephone calls through the Central Hudson Gas and Electric Corporation Information Bureau, Kingston 1405, making the astounding total of 4,545 inquiries in one season. Compared with the total of 4,704 direct inquiries received during the three previous years, it demonstrates conclusively the accumulative value possible from planned advertising and combined efforts.

Our advertising program this year attracted 15,400 additional vacationists to our County which produced an increased revenue of $385,000 to our resort operators alone, exclusive of any expenditures by vacationists for transportation, recreation and shopping.

The average vacationist in New York State for a two weeks vacation spends $57.00 per week for transportation, board, lodging and recreation. Applying this figure to the 49,000 vacationists that Ulster County resorts can accommodate at one time would produce a monthly income for this County of $5,586,000. This makes the resort business our greatest industry and 1945 the most successful resort season Ulster County has every had.

Acknowledgment

We wish to extend our sincere appreciation to all agencies, organizations and individuals who have so freely contributed their time and energy in helping to produce these record breaking results. Without their cooperation it could not have been possible.

Recommendations

Our results of the last four years have been due to our public officials, resort people, organizations, business men and individuals combining their efforts in a unified campaign to advertise Ulster County in the metropolitan area at a time when war restrictions forced distant resorts from that market. Today our Committee in cooperation with a committee of the Greene County Board of Supervisors has made Ulster-Greene Counties Vacationland a well organized region firmly established in the New York market.

Now the war is over, restrictions have been lifted, automobiles are again back on the road, distant resorts have been reopened to vacationists and we face greater competition in the future for the vacationist's dollar.

Because we have been successful for the past four years we cannot lessen our advertising and assume that business will come to us without effort. Only by increased cooperation can we hope to continue successful.

We recommend that $2,500.00 be included in the 1946 budget for our Publicity Committee. We suggest increased cooperation by the communities which are publishing town directories and offer our help and assistance to all other communities desiring to participate in our program.

Respectfully submitted,

Gentlemen:

We inclose copy of County Road Fund Report for the year 1944. The verifications of Bank balances is attached hereto and in explanation of the difference in the total of these balances and the balance as shown on the report is explained as follows: The County Treasurer holds $200,000.00 in U. S. Sixth War Loan Bonds bought with County Road Fund moneys. The sum of $60,000.00 was authorized to be Transferred from County Road Fund to Snow Removal Fund and this item is shown as a debit on the Report but the money was not withdrawn from County Road funds in Bank account until after December 31st, 1944 and hence the bank balances should be $60,000.00 less than they appear on Bank statement attached. This will leave a difference of $133.03 between the amount shown on report and the actual moneys in Bank and this difference has since been transferred so that the Bank balances agree with the ledger account balance on the County Treasurer's records.

Very truly yours,

ALBERT CASHDOLLAR,
County Treasurer.

BRIEF SUMMARY OF ACTIVITIES OF THE ULSTER COUNTY HOME BUREAU IN 1945

December 1, 1944—October 31, 1945

The Ulster County Home Bureau, operating in its twenty-ninth year, carried on an intensive program in homemaking education during 1945. The number of organized groups increased from **24** in 1944 to **29** in 1945, including **18** unit Home Bureau groups and **11** study clubs. The membership for 1945 was **613** compared with **566** for 1944. Memberships now in the office for 1946 total 564, more than double the number received at the same time last year. Cooperation with groups outside the organization included work with the P.T.A.'s Granges, Public Health Association, Cancer Control, Infantile Paralysis Campaign, War Fund Drives, and County and City War Councils.

Since the program is developed by homemakers themselves, the points of emphasis are determined by their needs. Chief among these during the past year was the wartime food problem. The homemaker's job of getting three meals a day onto the table was complicated by shortages and rationing. Of prime importance to her was information that would help her keep those meals nutritious and appetizing. During the winter, lessons were given on making the most of home canned foods, in large supply as the result of the good growing season in the summer of 1944 and full food preservation activities. The specialist trained leaders to meet specific problems such as meat and fat shortages.

A market report was broadcast weekly and publicity sent to the papers on how to make the best use of available foodstuffs.

Sponsored by County and City War Councils, the food preservation program was promoted with chief emphasis this year on freezing, in great demand by the homemakers of the county. Demonstrations were given at Clintondale, Highland, Kingston, Saugerties, Stone Ridge and Wallkill with local freezing plants cooperation. **31** food consultants from all over the county were trained to answer questions and give general assistance on all phases of food preservation.

Surprisingly, in spite of the poor gardens this year and the shortages of sugar, a sampling of the returns now indicates that the amount of food preserved was high and women say they saved from $50 to $150 by preserving it. Interesting, too, is the fact that several of these did not have their own gardens but purchased all their supplies.

When sugar began to be short, demonstrations on sugar stretchers were given groups of women in Ellenville, Highland, Kerhonkson, Modena, New Paltz, Saugerties, Stone Ridge and Woodstock.

This fall leaders are being trained on menu planning including short cuts and easily prepared meals.

Monthly letters with timely suggestions on food problems and preservation were mailed to every woman in the county asking to be placed on the list, totalling about **850.**

Interest in family life discussions is on the increase. Study clubs usually meet in the evening to accommodate young women who cannot get-away from home during the day. Generally there were two meetings a month. The **16** groups now organized choose their study courses according to the particular interests of members. The specialist and agent visited the clubs to give help on discussion methods and materials.

Dr. Helen Monsch, Head of the Department of Food and Nutrition at the College of Home Economics at Cornell, conducted two regional meetings in Kerhonkson and Kingston to answer the demands for help on children's feeding problems.

The first county wide Family Life Institute held in many years was made possible this year when gas rationing was removed, thereby giving club members an opportunity to get pertinent information and to give others an idea of individual club activities and accomplishments.

A growing awareness of the individual's responsibility in public affairs led to a series of discussions in the majority of units on various public problems:—problems of the peace, race relations, those of labor and management, public education, housing, understanding the people of other countries, etc.

Unit members in the county and city generously contributed to the clothing appeal for countries suffering the ravages of war conducted in the spring, with the Lake Katrine unit mending all articles collected in their community, about **1,000** in all This fall **178** cans of fruit and vegetables were processed for the United Nations Relief and Rehabilitation Administration.

In home management lessons were given on housecleaning, the repair of electric cords and the organization of a household task to accomplish it expeditiously.

Urged on by the shortage of clothing, **16** groups made rayon and woolen tailored dresses. Shoulder pads were made in these same units. Handbags, aprons, and articles for the home were copied from those sent around in a kit from the county office. This fall leaders are receiving training on the making of leather gloves.

Ten leaders have been working under the direction of the specialist for a period of six months to prepare themselves to give lessons on the making of hooked mats in their units.

Four units worked on braided rugs and exhibited them at the county wide summary meeting in May. The specialist gave lessons on living room rearrangement and accessories in Ellenville following which the trained group rearranged the living rooms of members.

Two units received help on landscaping home grounds; two units made Christmas greens. At a county wide meeting the making of winter bouquets was demonstrated.

The project on the History and Folklore of Ulster County began during the past year was fruitful and entertaining. The gathering of folklore, it was found, cements good fellowship and gives newcomers in the community a feeling of belonging.

The executive committee met monthly to direct administration of the program, and cooperated with the other two departments of the Ulster County Farm, Home Bureau and 4-H Club Association in holding an annual meeting, publishing the News and carrying on the regular business of the Association.

The teaching program was conducted by specialists, county leaders, local leaders and agent. The total number of meetings from December 1, 1944 through October 31, 1945 is **719** with **8,281** in attendance.

Respectfully submitted,

EVERICE PARSONS,
County Home Demonstration Agent.

4-H CLUB DEPARTMENT

ANNUAL REPORT SUMMARY, 1945

4-H CLUBS—1945

2011 Rural Boys and Girls enrolled in 4-H Club work have completed the best year's work ever!

1878 of these boys and girls had gardens—Victory Gardens, which produced abundantly even with adverse weather conditions. The work was handled as school-room class work is done. Each having eleven lessons in the principles of gardening, the manual of gardening, and the control of insects and diseases. 823 of this number were girls.

98 boys and girls were in the poultry project, and their records in this Office show that they owned 9614 birds. Over half of these were pullets and are coming into production.

45 boys and girls have cattle of their own. 57 are purebreds and 31 are grade animals. 17 4-H members have foundation stock from which herds will be grown. 15 boys and 1 girl bought Holstein purebred calves from the adult Holstein Association. They earned the money, $625.00, themselves.

59 boys and girls are enrolled in minor agricultural projects, and even though they be minor they earn from their project work. For example, the family pork for the winter is raised by the boy or girl and the boy with bees while earning, is building an Apiary.

224 girls and 6 boys have had food preparation instruction. There is no estimate that can be given that will be fair to these boys and girls as to accomplishments. They do have assurance in preparing food.

122 boys and girls have preserved food either by canning or freezing. There is a conservative estimate of 100 packages preserved per youngster.

212 girls have made most of their own clothing. It may have been that their dresses were remodeled. It may also have been a dress made

over from their mothers, their aunts, or their older sister. Many of these girls made dresses and clothes for their younger brothers and sisters.

17 Older Girls have remodeled their own bed-rooms, and from a course in Home Carpentry have made small accessories or bed-room furniture.

The earning power of these boys and girls spoken of above has been good. From their 4-H Club work they have been able to work for other people, milking, feeding cattle, working on general farm crops, and perhaps most lucrative of all, has been the work of girls in our farm and resort dining rooms where personal appearance and ability is needed.

Records have been kept by all these 4-H members. The pencil is the best implement a farmer can own.

465 of our boys and girls have completed on V-E and V-J Days their "fighting service" with the Armed Forces. It appears that rural living and the rural education along with 4-H Club work has helped these boys and girls meet the assignments with such an assurance that advanced ratings have come to our Ulster Rural boys and girls very readily. Very few of them have been discharged, but when they come back into civilian life, it is gratifying to hear them say, that Ulster County will be home. The 4-H Club Agent during the other war knew what it meant to receive letters from home and friends, particularly when on foreign soil. Since 1941 a letter has been written every five or six weeks to each and every 4-H Club boy and girl in Service, whether in a Camp in New York State, United States, Germany, Italy or the South Pacific. Many of the cooks aboard ships and in the Army received their basic foods work right here in Ulster County—5, 6, 7, years ago.

Last, but the greatest of all is the Health work. It has been instruction directly from the New York State Department of Health, Cornell University, and Ulster County itself. Each and every youngster has been helped in their food diet, their work, and their play.

Ulster's 4-H Youth again in 1945 as in all years previous has not had serious Juvenile Delinquency.

The families of these 4-H Club members are all grateful to the Ulster County Board of Supervisors for their cooperation with the New York

State College of Agriculture and Home Economics, and the United States Department of Agriculture.

Respectfully submitted,

E. R. Bower,
County 4-H Club Agent.

Reports of Committees

REPORT OF THE SPECIAL COMMITTEE FOR THE SELECTION OF JURORS

Gentlemen:

On Monday, November 27th, 1944, at an annual session assembled, the following resolution was adopted:

"Resolved, that the Chairman of the Board of Supervisors appoint a committee of three members of this Board to study the need for the modification and improvement of the methods of selection of jurors and the creation of an office of the Commissioner of Jurors in Ulster County, and

Be It Further Resolved, that the said Committee make a report in writing during the annual session of 1945."

Subsequent to the adoption of this resolution the Chairman appointed as members of that committee Harry Snyder of the Town of Marbletown, Robert Phinney of the City of Kingston and Justus North of the Town of Olive. This committee has from time to time conferred with various members of the Ulster County Bar and wish to add at this time that the Ulster County Bar Association has recommended this progressive step. We visited Frank A. Brockway, Commissioner of Jurors of Dutchess County who explained to us in great detail the workings of this method of selecting jurors.

We wish to report that it is now the practice to have the jurors selected from various towns and wards of the city by having their names deposited in a large drum or box and then selected for the respective terms of Court pursuant to statute in such case made and provided. However, the method employed is cumbersome and does not lend itself to efficiency.

We have found that at almost every term of Court it is necessary to select or draw more than on panel for the reason that, speaking in the

vernacular, "Many are called, but few are chosen" they having a number of reasons to advance, old age, certain exemption qualifications and various other excuses so that it is very difficult to procure the necessary number of jurors to adequately take care of the business of the Courts.

In the case of counties having a Commissioner of Jurors the situation is entirely different. There the Commissioner of Jurors interviews all prospective jurors and eliminates those who are disqualified by reason of age, physical defects or claim certain exemptions, which otherwise takes the time of the Court.

We feel from our observations and investigations that the best interests of the County of Ulster would be served and the business of our Courts will be expedited if the office of Commissioner of Jurors was created pursuant to the provisions of Title 13 of the Unconsolidated Laws.

We therefore recommend that the Chairman of the Board of Supervisors of Ulster County call a special meeting of the Board of Supervisors in the very near future for the purpose of creating the office of Commissioners of Jurors for Ulster County.

Dated, Kingston, N. Y., June 25th, 1945.

Respectfully submitted,

HARRY SNYDER,
ROBERT F. PHINNEY,
JUSTUS NORTH.

ULSTER COUNTY WAR COUNCIL

The Ulster County War Council curtailed its program in 1945 concentrating its efforts on Victory Gardens, Conservation of Food, Fat Salvage, Preservation and Freezing of Foods, Paper Salvage and Tin Salvage.

The Victory Garden Program was under the leadership of Mrs. William Warren and Ed Bower of the 4-H Club.

The Food Program was handled by Miss Everice Parsons of the Home Bureau, and the Salvage Committee consisting of the Town Superintendents of Highways and members of the War Council handled the salvaging of Paper and Tin.

A summary of the Victory Garden Drive and the Food Program will be given later in this Report.

A large amount of Paper was salvaged in every Town in the County. Collections were made by the Town Superintendents and Boy Scouts and delivered to the paper dealers with Town Trucks.

Three large carloads of tin were collected by the Town Superintendents and loaded in Kingston. Moneys received from both operations were returned to the Towns.

Some work on Juvenile Delinquency in connection with the State program was done in some of the Towns.

The Division of Civilian Protection wound up its affairs on July 1st. Equipment owned by the County was collected and stored; and a list of all Property was turned over to the County Auditor for his disposal. Furniture and Equipment in the Warning and Control Centers has also been turned over to the County Auditor. All records, Correspondence, etc., relating to the Ulster County War Council have been carefully preserved and stored for future reference.

ULSTER COUNTY RATIONING BOARD

The Ulster County War Price and Rationing Board was dissolved by Order of the Office of Price Administration on October 31st, 1945.

With the end of actual fighting on the various battle fronts several steps were taken to ease many of the controls necessary for the successful completion of our War Efforts. Among these were the elimination of rationing of Gasoline, Fuel Oil, Rubber Boots, Shoes and the many items classified under the general heading of "Processed Foods." Such action immediately curtailed the work of Rationing Boards to a great extent, and it was found advisable to liquidate many Boards through consolidation and the transfer of much of the Boards Work to various District O.P.A. Offices.

The Ulster County Board along with some 75% of the total local Boards throughout the Country, was officially closed and such functions as remain are to be carried out by the Kingston City Board.

The Ulster County Board was organized on January 7th, 1942 and throughout its existence was headed by members who served without pay and gave freely of their time and energies to the task of administrating the Rationing and Price Program of the Federal Government. Special commendation is due the Ulster County Farm Bureau, the Home Bureau, School Superintendents, Principals and Teachers for their efforts on behalf of the Board.

Special thanks are extended to the Board of Supervisors for their generous financial aid in providing supplementary funds, equipment and space for the proper functioning of the program which has been widely commended for speedy, courteous service throughout the War Emergency.

VICTORY GARDENS—1945

When it is necessary to do something, it takes Ulster County folks to do it. In December of 1941, a member of the 4-H Club Executive Committee stated we should all raise as many vegetables as possible, preserve them ourselves, so that the Commercial Canners could send their production directly to the Army, Navy and Defense areas. 1942 brought about a Victory Garden project. Adults and youngsters alike were asked to produce. They were also asked to enroll at the Victory Garden Headquarters which was designated to be the 4-H Department of the Extension Service in all New York State counties. 1942, 1943 and 1944 brought a continued increase. After three years experience and owing to the increased interest in Victory Garden work, the 1945 Victory Garden enrollment was larger than ever. Adults knew that they must produce or else be denied fresh vegetables; the youngsters in the County knew that their small gardens were needed and they too produced. With experience in back of everybody, this year's gardens were better planned, better cared for, better fertilized, and in many instances were a little larger. Even after May 8th, V-E Day there was not a visible slackening in the gardens. Mother Nature didn't cooperate too well, yet when fall arrived all gardens, county-wide were good.

In early January, Mrs. Wm. Warren, Chairman of the Victory Garden Committee, called together the 1944 Committee and discussed the proposed plan. At that time, a proposed Budget was offered to the representatives

of the Defense Committee. Mr. James Simpson and Mr. Albert Cashdollar took this proposed budget and studied it with previous years budgets. They returned a revised budget that was suitable.

With the aid of Emergency State and Federal Funds, an Educational program with Local Leadership was set up, and Mr. Wm. T. Hookey, Jr., Lake Katrine took over the Rural School contact work from February until June. He was swamped. Because the first Supervisory District was close at hand and because of weather conditions, Mr. Hookey's work started there. The interest and enthusiasm shown by the Superintendent, the School Teachers and the boys and girls took so much of his time that it was impossible to do similar work in the other three Districts. However, Mr. Hookey was able to make some visits in two of the remaining three School Districts. Traveling time prevented a thorough coverage. 89 Schools were contacted three different times (a month apart) with gardening lessons. During the summer months, home visits in communities were made by Mr. Hookey and the Club Agent. In September there was a request for a Victory Garden Harvest Show in District number one, in which about 70 per cent of the youngsters exhibited some of their garden produce.

Mrs. Wm. A. Warren was always available, as was Mr. Warren's work-shop where garden seed display racks were made. Mrs. Warren also took a class of youngsters in her home village to enable her to get closer to the youngster himself.

The 4-H Club Office was headquarters. The Victory Garden work was carried on along with 4-H Club work. 4-H Club work has always had a garden project, so that when War-time emergencies came, it was not necessary to change anything. All of us just went into 'high gear.' All records, all mimeograph material, all correspondence was handled in the office by the 4-H Club Secretary and a part-time assistant, Mrs. Ann Relyea. It is to be admitted that it did take extra time and work for 9,700 families' mail and correct addresses. The 4-H Club Office distributed all bulletins and emergency garden hints from the New York State College of Agriculture at Cornell University.

When the automobile came, many people who previously had spent their spare time in their family gardens, started taking rides instead of gardening. Then the radio came and that too took its toll in backyard gardening. The War put the gardens back. Many people have been

asked, "Will you have a 1946 Garden?" All have replied, "Yes." They must have a garden for their own exercise, health, and economic reasons. The commercial freezer locker of today of which there are six, with thousands of individual lockers has taken away three-quarters of the preservation work from the housewife. The frozen product is better and cheaper. It is a safe statement to make that for quite a number of years, we will have gardens and grow a great many of our table vegetables.

Statistically there were 572 days of garden work, 140 lectures, 51 potato lectures, 489 soil tests, 191 seed treatments, 1500 exhibits, 16,000 leaflets or bulletins, 194 inches of newspaper publicity from 31 articles, 14 cuts used, and 90 radio broadcasts. About 75 per cent of the seed planted matured in spite of a late spring and a very rainy season.

Respectfully submitted,

E. R. BOWER,
County 4-H Club Agent,
County Victory Garden
Coordinator

COOPERATIVE ACTIVITIES OF THE ULSTER COUNTY HOME BUREAU AND THE ULSTER COUNTY WAR COUNCIL

December 1, 1944—November 31, 1945

The Ulster County Home Bureau continued work on the conservation and wise utilization of foodstuffs during the past year as it has throughout the war. The activities included in this program, sponsored and supported by the Ulster County War Council and the New York State Emergency Food Commission, were fat salvage, food consultant service, demonstrations on food preservation, weekly publicity on the radio and in newspapers on supplies in the market, and monthly letters to interested cooperators containing timely suggestions on available foodstuffs, their use on the table and their preservation.

Plans for a food preservation program were begun early in the year. Interest centered around the freezing of food. However, since many women actually start in to do their preserving and then have a question

on which they want immediate help, a food consultant service was set up with 31 women agreeing to act as information centers in their communities. They were trained and given material for reference. The service was widely publicized.

With the cooperation of freezer locker plants throughout the county who circularized their patrons, demonstrations were given by the county food preservation leader to 234 women. Pressure cooker gauges were checked for accuracy.

As the preservation season advanced the sugar situation grew worse. Women were given advice on preserving with little sugar, sugar substitutes and without sugar. In June and July demonstration on sugar stretchers were given to 172 women and a sheaf of recipes on sugar savers were sent to the complete mailing list.

Food consultants answered questions in their own neighborhoods. 8009 bulletins and leaflets were distributed.

A sampling study of the food preservation records from 88 rural, village and city homes shows more food preserved than was anticipated. An estimation of the total amount of food preserved in the county is based on the average preserved by each of these 88 families:

The Ulster County War Council wishes to express its thanks to the Citizens of Ulster County, who so generously gave their time, and often times their money in serving the County and Nation during the War.

Respectfully submitted,

ALBERT CASHDOLLAR,
Chairman

The Post War Planning Committee of the Ulster County Board of Supervisors desire at this time to acquaint the Board with the many propositions under consideration by the Committee for the future benefit of the County; also requesting any constructive suggestions pertaining to these various projects that any member of the Board may care to offer; and also at this time solicits approval of these proposals insofar as your Committee has been able to proceed with them up to the present time.

One of the first improvements under consideration concerns the County Home near New Paltz. Sometime ago, numerous changes were made in the building that houses the ladies at the home. These changes have received very favorable comments on numerous occasions by many people.

It was desired at that time that needed improvements be made in the mens' quarters, but due to the restrictions imposed by war conditions, this could not be done.

Your Post War Planning Committee have thought it would be wise to construct a modest home for the County Commissioner of Public Welfare on County property at some distance from the present Administration building where the County Commissioner now resides; and then remodel the present administration building for a temporary home for the men, which would leave their building vacant so it could either be remodeled or rebuilt.

Then when the men were finally moved back to their new home the Administration building could be used for an enlarged hospital or any other needed purpose.

Your Committee reaffirms its belief that Ulster County should have an airport suitable to its needs. The Committee members have spent much time attending Aviation meetings sponsored by The Aviation Section of the New York City Board of Trade and also the Aviation Section of New York State Commerce Department and others.

Much valuable information has been obtained in this way.

It is believed that certain pertinent legislation will very soon be passed by the Congress of the United States. When the State of New York passes legislation matching Federal funds it will enable Ulster County to proceed along the road of securing a suitable airport.

In the meantime, all the necessary work has been done to take full advantage of this proposed legislation. You will recall at a recent meeting it was reported that surveys and other necessary work had been or was being accomplished.

The new County office building to be located on the Main Street site now owned by the County has arrived at the point where tonight your Committee is proud to display a picture showing this magnificant building.

It was first thought that a three story building would care for the needs of the County but subsequently this was found not only inadequate for present needs but would leave no room for future growth.

Your Committee feels that Ulster County with its many natural, economic, locational and social advantages, will grow very rapidly in the next five, ten or fifteen years; and it would not be wise if we did not plan for this growth.

This building will consolidate under one roof most of the County activities and also provide room for various hearings, meetings and gatherings so necessary to the future welfare of the citizens of our County.

It is thought desirable by your Committee to remodel the present Court House. This of course could not be done until after the new County Building has been constructed.

It has been planned to use the present Supervisors Room together with the adjacent smaller rooms for the County Court Room. Quite fre-

quently both Supreme Court as well as County Court desire to hold court at the same time and this would so provide.

More room is needed for Children's Court, the Probation Officer and resident Supreme Court Judges.

Plans for these changes are now being prepared and in due course will be submitted to your Honorable Body.

It should be emphasized at this time that your Committee feels that these projects cannot be started in the immediate future due to material shortages.

And also that they should not be started until such time as this work is needed in Ulster County to take up the slack of unemployment in Ulster County. It is also recommended that insofar as possible all materials used for Post War improvements originate in Ulster County wherever it is practical to use them.

We further recommend that the proposed County Office building when completed be known as the "Ulster County Memorial Building" in grateful appreciation of our boys of Ulster County who made the supreme sacrifice that this nation might live.

HARRY SNYDER,
EDWARD E. MURRAY,
HAROLD C. OSTERHOUDT,
Committee.

REPORT OF THE POST WAR PLANNING COMMITTEE

Your Committee on Post War Planning as part of its duties inspected several sites which have been suggested for an Airport and reports that site at what is called Ulster landing is the only one at present which will be approved by the Civil A. Authority and without such approval it would be impossible to obtain any assistance that may come from the Federal Government in event the pending legislation is passed.

Your Committee further recommends that it be instructed to inquire into the availability and approximate cost of the land sought to be acquired for such Airport.

Respectfully submitted,

HARRY SNYDER,
EDWARD E. MURRAY,
HAROLD C. OSTERHOUDT,
Committee.

NEW PALTZ

Settled in the year 1677. Twelve persons purchased of the Esopus Indians a tract of land twelve miles square, for which they obtained a patent during the administration of Governor Andros. These persons were the Twelve Patentees, and they and their successors in office, duly elected by their descendants exercised the functions of officials in all public matters until about the year 1751. These officials were sometimes called "The Dazine," or "Twelve men," and were annually elected for a long period after the first regular election of town officers. The original patentees were

Lewis DuBois, Christian Deyo, Abraham Hasbroucq, Andries Lefever, Jean Brocq, Pierie Deyo, Lawrence Beverie, Anthony Crespel, Abraham DuBois, Hugo Frere, Isaac DuBois and Simon Lefever. The first record of the election of town officers dates in the year 1751. A part of Hurley was annexed February 2, 1809.
